MANAGEMENT DISCUSSION AND ANALYSIS

Steel Industry Structure and Developments:

Global Scenario:

The global steel industry is going through tough times due to slow down of economic growth across geographies. In 2015, the world crude steel production declined by 2.8% and reached down to 1622 million tons (mt). Steel manufacturers are struggling to sustain margins with high turnovers but with the lowest prices of a decade on account of market penetration by China with low prices.

Steel manufacturers across the globe are trying to reduce debts and manage costs by improving operational efficiency to tackle the current scenario. The Steel demand in 2016 is expected to move further down and may reach 1480 million tons. However, a growth in the industry and steel production may reach around 1500 million tons in 2017.

Domestic Scenario

India reached 3rd position in crude steel production during 2015-16 and is expected to become the second largest crude steel producer in the coming years, as the demand for steel in India is growing with the developments in infrastructure and rapid growth in industrial sector and also the availability of raw materials, urbanization, increase in incomes and consumer demand in India.

- India produced around 90 million tons of crude steel in 2015-16 and whereas the consumption was around 110 million tons.
- As per World Steel Association, crude steel production in India increased by 2.6% as compared to previous year. This shows a demand for steel will increase by 5.4% in coming years 2016 and 2017.
- India has overall positive economic growth due to the reforms and policies by central government, to increase infrastructure and manufacturing output. The Govt. of India allocates funds and encourages private participation through the PPP route to push for infrastructure development.
- Rapid rise in production resulted in India becoming the 3rd largest producer of crude steel in 2015 and the country continues to be the largest producer of sponge iron or DRI in the world.
- As per the report of the Working Group on Steel for the 12th Five Year Plan, there exist many factors which carry the potential of raising the per capita steel consumption in the country. These include among others, an estimated infrastructure investment of nearly a trillion dollars, a projected growth of manufacturing from current 8% to 11-12%, increase in urban population to 600 million by 2030 from the current level of 400 million, emergence of the rural market for steel currently consuming around 10 kg per annum buoyed by government projects.

Government Initiatives

The Government of India is aiming to scale up steel production in the country to 300 MT by 2025 from about 90 MT in 2015-16. The government has launched the National Mineral Exploration Policy (NMEP), which will help to adopt comprehensive exploration of non-fuel and non-coal mineral resources that would give a major boost to the economy.

Metal Scrap Trade Corporation (MSTC) Limited and the Ministry of Steel have jointly launched an e-platform called 'MSTC Metal Mandi' under the 'Digital India' initiative, which will facilitate sale of finished and semi-finished steel products.

The Parliament of India has cleared amendments to the Mines and Minerals Development and Regulation (MMDR) Act, which will enable companies to transfer captive mines leases similar to mines won through an auction, and which is expected to lead to increased Mergers and Acquisitions (M&A) of steel and cement companies.

The Ministry of Steel has announced to invest in modernisation and expansion of steel plants of Steel Authority of India Limited (SAIL) and Rashtriya Ispat Nigam Limited (RINL) in various states to enhance the crude steel production capacity in the current phase from 12.8 MTPA to 21.4 MTPA and from 3.0 MTPA to 6.3 MTPA respectively.

The total outlay for infrastructure in Budget 2016-17 stands at Rs 221,246 crore (US\$ 32.8 billion), which is expected to generate much needed demand for steel industry.

The Minister of Steel & Mines, Mr Narendra Singh Tomar, has reiterated commitment of Central Government to support the steel industry to reach a production target of 300 Million Tonne Per Annum (MTPA) in 2025.

The Ministry of Steel is facilitating setting up of an industry driven Steel Research and Technology Mission of India (SRTMI)

in association with the public and private sector steel companies to spearhead research and development activities in the iron and steel industry at an initial corpus of Rs 200 crore (US\$ 29.65 million).

State-run company Steel Authority of India (SAIL) has received an order for supplying steel for seven warships to be constructed for the Indian Navy. This would be the first time Navy's warships will be built using Indian steel.

Some of the other recent government initiatives in this sector are as follows:

- The Government of India plans to enact a law that will allow the companies which received mining licenses without having gone through the auction process, to transfer these leases, in a move that is expected to make Mergers and Acquisitions (M&As) easier in the steel, cement, and metals sectors.
- The Central Board of Excise and Customs (CBEC) has issued a notification announcing zero export duty on iron ore pellets, which will help the domestic industry to become more competitive in the international market.
- Steel Research and Technology Mission of India (SRTMI) was established with an initial capital of Rs 200 crore (US\$ 29.65) by the government to spearhead Research & Development (R&D) activities of national importance in collaboration with the steel industry.
- Government of Chhattisgarh and Jharkhand plan to set up Greenfield steel plants with initial capacity of 3 Million Tonnes Per Annum (MTPA), which will be later enhanced to 6 MTPA.
- Ministry of Steel has signed a Memorandum of Understanding (MoU) with Ministry of Skill Development and Entrepreneurship to facilitate skill development through Central Public Sector Enterprises (CPSE) of the Ministry.
- Government has introduced the National Mineral Exploration Trust (NMET) to enhance mineral exploration in the country.
- Government of India plans to auction eight coal blocks with reserves of 1,143 million tonnes to steel and cement firms in January 2016, as per coal secretary Mr Anil Swarup.
- Government has planned Special Purpose Vehicles (SPVs) with four iron ore rich states i.e., Karnataka, Jharkhand, Orissa, and Chhattisgarh to set up plants having capacity between 3 to 6 MTPA.
- A Project Monitoring Group (PMG) has been constituted under the Cabinet Secretariat to fast track various clearances/resolution of issues related to investments of Rs 1,000 crore (US\$ 148.24 million) or more.
- To increase domestic value addition and improve iron ore availability for domestic steel industry, duty on export of iron ore has been increased to 30 per cent. (Source ibef.org)

POWER

The company has a 60 MW captive power plant which produces power from waste heat gas generated by the Sponge Iron Kilns and also utilizes the coal fines and coal char generated in the sponge iron making process. About 14 MW of power is generated from waste heat and the balance power is generated by using coal fines, coal char and fresh coal. The surplus power, which was about 60 % of generation, was sold to the state utilities. The power revenue also contributed to revenue and the bottom line. However, the company's margins were affected during the year due to reduction in off take of power by State Governments, as against the contracted quantities.

Opportunities:

India is expected to become the world's second largest producer of crude steel in the next 10 years, moving up from the third position, as its capacity is projected to increase to about 300 MT by 2025. Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors.

Government of India is taking various steps to address the issues of the steel sector. The government is committed to increase steel production in India. It has taken number of steps to protect the domestic manufacturers from the threat of cheap imports from China.

Threats:

- Delays in the government allocating sufficient iron ore blocks, regulatory approvals and challenges in land acquisition have slowed many steel projects.
- Shift towards relatively lower steel demand growth in most of the heavy-weight economies including China.

- Structural shifts in the Chinese market arising from over capacity coupled with weakening prices are threatening the Indian players.
- As China threat is partly getting managed through the anti dumping duty route, we now are facing sluggish demand and low prices.

The industry therefore faces external as well as internal threats. The manufacturing cost in India remains high and with coal getting auctioned, it will only go up further. China and Russian producers could keep flooding the market directly or indirectly.

**"ANNEXURE B" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE
STANDALONE FINANCIAL STATEMENTS OF STEEL EXCHANGE INDIA LIMITED**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of
the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of STEEL EXCHANGE INDIA LIMITED ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for the Financial Statements

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance

Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

**NOTES to Financial Statements for the year ended 31st March, 2016****Nature of business:**

Steel Exchange India Limited was incorporated on 24th February 1999. The activities of the company are manufacture of steel products, trading of related products and generation and sale of Power.

The Company is a Public Limited Company incorporated and domiciled in India and has its registered office at Hyderabad, Telangana, India. The company has its listing on the BSE Limited.

1. SIGNIFICANT ACCOUNTING POLICIES:**i) Basis of Preparation:**

The financial statements are prepared under historical cost convention in accordance with the generally accepted accounting principles in India ("Indian GAAP") and comply in all material respects with the mandatory Accounting Standards ("AS") prescribed under section 133 of the Companies Act' 2013 read with rules 7 of the Companies (Accounts) Rules, 2014 and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting Policies have been consistently applied except where a newly issued accounting standard is initially adopted or revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

ii) Operating Cycle:

All assets and liabilities have been classified as Current and Non-Current as per the company's normal operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of Current and Non-Current classification of Assets and Liabilities.

iii) Revenue Recognition:

Revenue is recognized when it is earned and no significant uncertainty exists as to its realization or collection.

Revenue from sale of goods is recognized on delivery of the products, when all significant contractual obligations have been satisfied, the property in the goods is transferred for price, significant risks and rewards of ownership is retained. Sales are net of sales tax/Value added tax. Excise duty recovered is presented as a reduction from gross turnover.

iv) Use of estimates:

The preparation of financial statements in conformity with Indian GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and estimated useful lives of fixed assets. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods.

v) Fixed Assets:

Fixed Assets are stated at cost less accumulated depreciation inclusive of freight, duties, taxes and incidental expenses relating to the cost of acquisition and finance cost.

vi) Borrowing costs:

Borrowing costs attributable to the acquisition or construction of qualifying assets, as defined in Accounting Standard 16 on "Borrowing Costs" are capitalized as part of the cost of such asset up to the date when the asset is ready for its intended use. Other borrowing costs are expensed as incurred.

vii) Capital Work in progress:

Projects under which assets are not ready for their intended use and other capital work-in- progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

viii) Depreciation:

Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets as per the schedule II of the Companies Act.2013. Leasehold improvements are written off over the lower of the remaining

NOTES to Financial Statements for the year ended 31st March, 2016

primary period of lease or the life of the asset. The useful life of the assets adopted by the company is as per schedule II of the Companies Act, 2013 as follows:

Building	60 years
Factory Buildings	30 years
Plant and Machinery and Others	15 years
Plant and Machinery (Power Generation)	40 years
Plant and Machinery (Rolling Mill)	20 years
Office equipment	5 years
Computer equipment	3 years
Furniture and Fixtures	10 years
Electrical Installations	10 years
Vehicles (Other than two wheelers)	8 years
Vehicles	10 years
Roads (Carpeted other than RCC)	5 years
Roads (Non Carpeted)	3 years

ix) Inventories:

Inventories are valued at the lower of cost and net realizable value. Cost of inventories comprises all cost of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined by First In First Out (FIFO) method.

The liability towards excise duty on finished goods lying in excise godown is provided in the books and therefore the stock is valued inclusive of excise duty payable thereon in accordance with the provisions of AS-2 "Valuation of Inventories". However this has no impact on the profit of the year.

x) Investments:

Long-term investments are carried at cost less provision for diminution other than temporary, if any, in value of such investments. Current investments are carried at lower of cost and fair value.

xi) Income Tax:

Income taxes are accrued in the same period that the related revenue and expenses arise. A provision is made for income tax, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable. Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives rise to future economic benefits in the form of tax credit against future income tax liability, is recognized as an asset in the Balance Sheet.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

xii) Retirement and other Employee Benefits:

- a. **Defined Contribution Plan:** Fixed contributions to Provident Fund are recognized in the accounts at actual cost to the Company.
- b. **Defined Benefit Plan:** The Company makes contribution to a scheme administered by the insurer to discharge gratuity liabilities to the employees. The Company records its gratuity liability based on independent actuarial valuation as at the Balance Sheet date.
- c. **Other Employee Benefits:** Other employee benefits are estimated and accounted as per the company's policy and the terms of the employment contract.

xiii) Foreign Currency Transactions:

Foreign currency transactions are recorded at the exchange rate prevailing on the date of the transaction. Monetary foreign currency assets and liabilities are reported at the exchange rate prevailing on the balance sheet date. Exchange differences relating to long term monetary items, arising during the year, as so far as they relate to the acquisition of

**NOTES to Financial Statements for the year ended 31st March, 2016**

the depreciable capital asset are added to/deducted from the cost of the asset and depreciated over the balance life of the asset after the commencement of actual production.

xiv) Cash flow statement:

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

Cash and cash equivalents presented in the cash flow statement consist of cash on hand and unencumbered highly liquid cash bank balances.

xv) Provisions:

A provision is recognized when the Company has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

xvi) Earnings Per Share:

The company reports basic Earnings per share (EPS) in accordance with Accounting Standard 20 on "Earnings per share". Basic EPS is computed by dividing the net Profit or Loss for the year attributable to equity share holders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

xvii) Segmenting Reporting:

The Company is primarily engaged in the business of manufacture and sale of iron and steel products and generation and sale of power. The primary segment of the company is steel which in the context of Accounting Standard 17 on "Segment Reporting" constitutes reportable segment. However the company has captive power generation for manufacture of steel products. The unutilized power is sold to power traders and the revenue so generated is included in the sales.

xviii) Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

xix) Prior period items

All items of income/expenditure pertaining to prior period, which are material, are accounted through "prior period adjustments".

xx) Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased assets are classified as operating leases.

Where the Company is the lessee

Operating lease payments are recognized as an expense in the Statement of profit and loss on straight-line basis over the lease term.

Where the Company is the Lessor

Assets subject to operating Leases are included in fixed assets. Lease income is recognized in the Statement of profit and loss. Costs including depreciation are recognized as an expense in the Statement of profit and loss.

xxi) Contingent Liabilities

A contingent Liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize contingent liability but discloses its existence in the financial statements.
